Talaat Taha

Front End Developer

tl3ttarek@gmail.com | +201016604185 | Tanta, Egypt | Linkedin | Github

As a highly motivated individual seeking an internship in frontend development, I possess a solid foundation in web development technologies including HTML, CSS, and JavaScript. With a passion for creating intuitive user interfaces, I have completed several personal projects that demonstrate my ability to design and implement responsive and visually appealing web pages. I am eager to learn more about frontend frameworks such as React and Vue, and I am committed to expanding my skills and knowledge in these areas. With excellent communication and collaboration skills, I am excited to contribute my enthusiasm and willingness to learn to a dynamic and innovative team.

Education

09/2020 – 09/2025	**Computer Engineering and Automatic Control,** *Tanta University* Throughout my academic career, I have been an active participant in a variety of student activities, including clubs, events, and competitions. As a member of these organizations, I have developed strong leadership, teamwork, and communication skills, and have gained valuable experience in organizing and managing projects and events. In particular, my involvement in Google Developer Student Club allowed me to develop my Leadership and Communication skills, and I am proud to have contributed to the success of the organization during my time as a member. This experience has taught me the importance of collaboration, creativity, and perseverance in achieving common goals, and I am excited to bring these skills and experiences to a dynamic and innovative team	Tanta, Egypt

Creativity	

Projects

03/2023 – 04/2023 — **ICPC Tanta Community Website** ⧉
This project is a competitive programming community website that aims to help individuals elevate their skills through access to a comprehensive resource library, expert mentorship, regular practice sessions, and the latest ICPC updates. The community is designed for individuals who want to improve their competitive programming skills, regardless of their level of experience. With a strong focus on providing unparalleled resources and expert guidance, this project is the ideal platform to give your competitive programming skills the boost they deserve. Join our community today and take your competitive programming journey to the next level!

04/2023 — **Personal Portfolio Website** ⧉
Developed a personal portfolio website to showcase my skills, work, and contact information. As the UI developer, I designed and developed a responsive and visually appealing user interface using HTML, CSS, and JavaScript. The website was optimized for search engines and featured interactive elements.

02/2023 – 03/2023 — **Appie. Website** ⧉
Launch your app in one place with our One-Stop App Launch Platform. Our streamlined process provides all the necessary tools and resources for a successful launch, including app upload, payment options setup, and marketing to potential users. Join us today and take your app launch to the next level!

11/2022 – 12/2022 — **Omnifood Website** ⧉
Get a healthy meal delivered to your door every day with our Smart 365-day-per-year food subscription. Our personalized meal plans are tailored to your tastes and nutritional needs, making it easy to eat healthy again. Join us today and start enjoying the benefits of a healthy, convenient meal subscription!

Courses

12/2022 — **Build Responsive Real-World Websites with HTML and CSS,** *Udemy*

01/2023 — **Git: Become an Expert in Git & GitHub,** *Udemy*

10/2022 — **Programming Foundations: Algorithms,** *LinkedIn Learning*
