🪪 Profile

As a highly motivated individual seeking an internship in frontend development, I possess a solid foundation in web development technologies including HTML, CSS, and JavaScript. With a passion for creating intuitive user interfaces, I have completed several personal projects that demonstrate my ability to design and implement responsive and visually appealing web pages. I am eager to learn more about frontend frameworks such as React and Vue, and I am committed to expanding my skills and knowledge in these areas. With excellent communication and collaboration skills, I am excited to contribute my enthusiasm and willingness to learn to a dynamic and innovative team.

🎓 Education

Computer Engineering and Automatic Control, Tanta University   Sep 2020 – Sep 2025
I have actively participated in various student activities, including clubs,   Tanta, Egypt
events, and competitions, which helped me develop strong leadership,
teamwork, and communication skills. My involvement in the Google
Developer Student Club specifically allowed me to further enhance my
Leadership and Communication skills. I look forward to bringing these
skills and experiences to a dynamic team.

💼 Professional Experience

Kalbonyan Almarsos, MERN Stack Developer Intern   Dec 2022 – present
- Completed a comprehensive curriculum in frontend development,   Remote
  covering topics such as HTML, CSS, JavaScript
